

## EA-32002C SMARTBOX® Lab Control Unit

The Controller automates on/off gas flow at the push of a button, delivering CO<sub>2</sub> to individual cages or Euthanex Lids. The EA-32002C has two separate switches, allowing up to two cages to be individually controlled with independent operation of each gas output. This feature increases the user efficiency when individually euthanizing a large number of animals. The run and ready lights easily indicate outputs in operation.

Operates at a fixed flow rate based on the external CO<sub>2</sub> source.

### Compliant with AVMA Guidelines

*Lids and chambers not included*

*EA-32002C includes: SMARTBOX Lab Control Unit and two EA-1130 Lab Unit Hoses*

### Lab Control Unit Features:

- **Compliant with AVMA Guidelines**
- Increases efficiency by staggering cage start times
- Treats animals at individual cage level
- Designed for investigators that need to retrieve animals quickly
- Utilizes the full range of Euthanex lids or existing induction chambers
- Minimizes operator error and excessive gas use
- Automatic shut-off saves gas and protects personnel
- Double throw switches start and stop each output
- Lights indicate cycle completion
- Controller easily attaches to wall

### Accessories

**EA-550 Heated  
PSI Regulator**

**EP-IL60 Inline  
Regulator**
