

## MCO2-100 Handheld CO<sub>2</sub> Meter

Up to 100% concentration

Our portable, battery-powered 100% CO<sub>2</sub> Sampling meter is designed to measure carbon dioxide in enclosed environments or inaccessible areas. Use it for CO<sub>2</sub> applications like SMARTBOX<sup>®</sup> verification, cage levels, and induction chambers. Place meter directly inside the chamber or vessel, or connect tubing to input port and sample from outside the area.

- Perform your own CO<sub>2</sub> level validation
- Lightweight, easy-grip design
- Power On/Off Switch
- Two line back-lit LCD display
- Built-in micro pump
- 0 - 100% CO<sub>2</sub> range
- Impact-resistant case, power supply
