OPTIONAL ACCESSORIES

SURGERY BED STATIONS

Give your wrists a rest. The raised platform provides a convenient hand rest during surgery while the patient is stabilized on the bed with sutures. This stainless steel surgery station allows for optimal lighting, suture tie downs, and adjustable magnifying glass in one compact design. It is compatible with all of our E-Z Anesthesia® electrically heated and non-heated plastic beds. Easy to clean.

EX-IC EXHAUST CUBE

The EX-IC70 features an internal blower that captures waste gas from our vented chamber and up to four breathing devices. Calibrated specifically for small animal anesthesia applications, the EX-IC will safely capture waste gas without pulling fresh gas away from the animal. The device has the standard 22mm exhaust port that can be used with a charcoal filter or routed to a fume hood.

Optional HB-163XL Heated Chamber Warmer available.
