TT-8200 SMARTBOX® Tabletop Chamber

The TT-8200 Tabletop Chamber automates a three-stage euthanasia cycle at the push of a button: charging, dwell time, and exhaust. At the start of a cycle, the chamber lid automatically locks and will not unlock until CO_2 evacuation is complete. The clear acrylic construction provides full visibility and a top loading lid promotes easy cage access. The airtight, gasket-sealed lid prevents gas leakage during operation. The manifold design ensures even gas distribution. The system accommodates the full range of rodent cages from all manufacturers.

- *Compliant with AVMA Guidelines*
- Accomodates up to 10 shoebox mouse cages or 2 standard rat cages
- Automation virtually eliminates operator error
- Lid automatically locks during operation
- After starting chamber, the technician is free to do other work
- Double throw switch allows for two different treatment times
- Programs can be customized based on facility requirements
- Operates at a fixed flow rate based on the external CO_2 source

Inside Dimensions: 27.5"L x 19"W x 13.75"H

TT-8200 includes:
SMARTBOX® Side Control Box, Tabletop Chamber,
Exhaust Blower, 8' of 4" Exhaust
